

I'm passionate about improving opportunities within our community, including having access to great facilities which have social and wellbeing benefits for all. Whether it's the local sporting clubs, community groups, multicultural groups or school P&Cs they all provide the glue that bring us together as one. In the past 5 years in my role as board member and President at Floreat Athena FC I have worked closely with the city to bring \$3m of Federal Funding towards new community changerooms and clubroom upgrades. I have overseen our club grow from 198 juniors to 450 over the past 5 years with girls' growth from 8 girls up to 92 girls. I have facilitated other clubs and groups using our facilities including the Vincent City Ducks, Transition Town Vincent, and Tool Library. I have also helped the Mt Hawthorn Cardinals and North Perth Utd with access on Britannia when they had no grounds at times during the past season. I have run and owned numerous businesses throughout my life including as a registered builder and owned and run a health club for 10 years with over 1600 members and am experienced in financial management. I have recently only last year started a small business line marking sports fields. I am sure many of you have seen me marking fields at Britannia Reserve and Woodville Reserve, especially the dog owners as they seem to have a real soft spot for my robot! I believe in making sound, long-term decisions which impact Vincent over the next 20 years not just in the immediate term. I believe in also being proactive, innovative and "thinking outside the box" when coming up with ideas that impact our community. My promise to the constituents if I am successfully elected, is to always strive to give 100% and my motivation to leave anything I'm involved in, in a better place than when I started!
