

Vincent deserves a Council who is visible, proactive and accessible. I have been a North Ward representative since 2021 and know there is no substitute for engaging with residents and businesses to find out what matters to them. This is the most important part of being a Councillor and one I take very seriously. I have over 30 years' experience in the media, including 20 years management experience at the ABC. Since 2017 I have been a small business owner in Vincent, creating events that have positive social impact. I am committed to a connected community that respects our character, history and identity and is innovative and sustainable. I'll explore security options that provide a rapid response to non life-threatening situations; champion pedestrian accessibility; investigate better parking options for Leederville, such as utilising existing infrastructure outside of traditional business hours. I'll engage with our younger generations, let's hear these voices! As population and housing density increases, demand on our public open spaces will grow. How will we ensure that these spaces are used to the maximum benefit for all? What facilities do we need to prioritise to make these spaces usable, while allowing for sufficient downtime? I fear our community is suffering from 'consultation fatigue' and that sometimes only the loudest voices get heard. It can mean that important messages are missed by those who need to receive them. What ideas can we employ to spread the relevant messages to the relevant audiences in an innovative and convenient way? Are our current administrative processes a deterrent for small business? Let's make a difference. The people of Vincent need representatives who are enthusiastic, diligent and prepared to work for the best outcomes for all. I am independent and I have no obligations to any political party or interest group. I will meet with you, talk with you and represent you.
