Vincent deserves representatives who are visible, proactive and accessible. As a Councillor I know there is no substitute for engaging with residents and businesses to find out what matters to them and I seek to continue doing this.

With 30+ years' experience in the media, including 20+ years at the ABC, I value good communication, integrity and transparency. I am independent and I have no obligations to any political party or interest group.

I am a local small business owner and am committed to a community that respects our character and history; is innovative and sustainable.

I will explore new security options; investigate Leederville parking solutions; help minimise red tape; support best use of public open space; champion pedestrian accessibility and connect with our younger generation.

Your Council needs to be involved, understand the issues and know the environment. I have a strong record of community engagement. I will meet with you, talk with you and represent you.
