MAYOR'S MESSAGE

Thank you to the Vincent community for helping us refresh this important plan.

The Strategic Community Plan (SCP) is Vincent's most significant guiding document. The purpose of the plan is to establish the community's vision for our future.

It underpins everything that we do at Vincent. It paves the way for Council's decision-making on what is important to our community.

Our first version, SCP 2018 – 2028 set up a solid foundation for Vincent to thrive.

We developed the original plan after engaging with hundreds of people as part of Imagine Vincent – the biggest community engagement initiative in our history.

Four years on, it was time to touch base again with our community and review this vision and priorities through the Imagine Vincent: The Sequel campaign.

We ran online surveys, met people at face-to-face workshops and held pop-up stalls in town centres, popular locations and community events such as Neon Picnic, Kyilla Community Farmers' Market and the Pickle District After Dark.

As a result, we received a total of 843 submissions. More than 1400 people visited the Imagine Vincent: The Sequel webpage and over 9900 people were reached through our social media channels.

The feedback confirmed the original vision and priorities aligned with what our community is thinking now.

It is rewarding to know we are on the right track with some improvements that can be made.

This new plan is an extension of the original which guided the development and completion of many key projects.

These projects include the ambitious Sustainable Environment Strategy, delivering the Food Organics and Garden Organics (FOGO) three-bin system, significant park upgrades at Haynes Street Reserve and Banks Reserve and safer street initiatives such as 40km/h on local roads.

During the development of the plan, we heard overwhelmingly from our local community that they wanted to see underground power rolled out in Vincent.

Residents saw underground power as a way to increase tree canopy within streets and enhance the aesthetic appeal of our community.

In late 2022, we launched our Vincent Underground Power Project with Western Power and included the undergrounding of power lines as a key outcome in the SCP.

Vincent will continue to deliver a raft of community projects supported by the key priorities in the new plan.

We are excited to work with our community to make Vincent a more vibrant, diverse and sustainable place for generations to come.

INTRODUCTION

The Strategic Community Plan 2022 – 2032 is the Council's key strategic document. It describes the vision Vincent will strive to achieve over the next decade, where it will focus its efforts and how it will measure progress. It is the result of the deliberative engagement with a broad cross-section of the community. These are the people who live, work, study, visit or own a business within the municipality.

The Community Engagement Plan was developed in mid-late 2021 with the engagement activities occurring throughout March, April and May 2022.

PLANNING & REPORTING FRAMEWORK

Under the *Local Government Act 1995*, every local government in Western Australia must develop a Strategic Community Plan, as part of an Integrated Planning and Reporting (IPR) Framework.

By undertaking an IPR process, we can ensure that we take account of our current and future resourcing, our workforce requirements, our assets, and the recommendations of other informing strategies and plans. The relationship between the SCP and the City's other strategic and operational documents is reflected in the adjacent diagram.

LONG TERM FINANCIAL PLAN is a 10-year rolling plan that assists the City to set priorities in accordance with its financial resources, through consideration of key assumption-based analysis. This allows the organisation to make decisions in a financially sustainable manner.

WORKFORCE PLAN identifies the workforce requirements and strategies for current and future operations, ensuring that our human resources support the delivery of the Corporate Business Plan (CBP) and SCP.

ASSET MANAGEMENT STRATEGY provides guidance on service provision and whole of life-cycle asset management to support the City's financial sustainability and key service levels.

ANNUAL BUDGET is based on the projected costing of the related year of the CBP, with the opportunity for review and revision during the mid-year budget review process.

OUR VISION:

In 2032, the City of Vincent is a leafy and vibrant 24-hour city, which is synonymous with quality design and sustainability. Its diverse population is supported in their innovative endeavours by a council that says YES!

This vision was created by the independently and randomly selected Community Engagement Panel for the Strategic Community Plan 2018 – 2028. It continues to be important to our community.

MONITORING AND REVIEW

Reporting is important for Vincent to be able to measure and monitor progress of initiatives to deliver on the strategic aspirations detailed in the Strategic Community Plan and initiatives set out in the Corporate Business Plan. Vincent is committed to reviewing internal and external reporting mechanisms to ensure the business is aligning its priorities and delivering on its commitments.

It is also important to note that the Strategic Community Plan, while being incredibly important in guiding us over the next ten years, will not remain static.

As we continue to deliver on the outcomes and actions of this plan, we will maintain an open and transparent dialogue with the community, to stay in line with community expectations.

We will undertake a desktop review of this plan every two years to ensure the outcomes and actions remain relevant. A complete review of this plan will be undertaken every four years, involving further engagement with the broader community. Our two-yearly desktop reviews will ensure the size and scope of the four-yearly review appropriately responds to any changes in community aspiration or expectation.

This in turn will support us in continuing to be an agile local government that is alert and responsive to our community's needs.

Our primary reporting includes:

Financial Reporting

- mid-year financial reviews
- annual budget

Projects and Services Reporting

- annual report
- annual corporate business plan
- four-year capital works program
- major strategies undergo a minor review every two years and major review every four years*
- policies are reviewed every four years*
